CD 14 Team-

Please find attached our preliminary Parklet Application as promised. If one of you could give me an email introduction to Kevin on your staff I would love to go through it with him. We would love to get a letter of support from the council office to submit with our final application. S111 is doing a more specific labeled plan now that we got your topline blessing. We are also completing our budget and need a few signatures but this is a good time for input. It will be great to get this done. Thanks for your continued support.

Kathleen
